

Uncle George has done so much for all of us . I thank God for the great missionary program and that Karl G.Maeser sought out our relatives and that our Grandfather said," Yes." I'll remember always President Percy Fetzter's talk and the questions he asked us.... "What are you doing ? and what are you going to do about the great heritage that is yours?" I Promise to do my best to live a better life and to help anyway I can to improve our Bern Cemetery and show my gratitude to my ancestors.

LaVaun Hansen

I have been so impressed with my experience in Europe, especially with Switzerland. It is hard to find words to express my feelings. When my Father was on a mission with Uncle John in 1885, He wrote, " As I sat on a hill overlooking the beautiful city of Bern, a feeling of gratitude came over me and I thanked my Heavenly Father for the Gospel and for the testimony which I have of it, and as beautiful as it is in Switzerland I still like America best." That same feeling came over me and my Fathers word express my feelings also. Thanks June.

Love, Kate

It has been a memorable occasion and I for one will never forget the many and precious memories and the blessings of the Lord to us in answering our prayers and the miracles that occurred. I hope and pray time will not dim or in anyway make us lose the spirit we all felt at different times. I was more than paid for the whole trip by one or two occasions.... Saturday night at the Reunion where great love was shown and we could communicate by hand clasps, what we couldn't say in words. Again Sunday at the Interlaken Branch when one of our family members, Willard Kunz a Patriarch so beautifully and sincerely bore testimony. We were also privileged to hear the sincere and beautiful testimony of Bishop Neil Kunz of St. Anthony, Idaho. The spirit was so strong it brought tears of joy. That same day at the village of Thun..
